

IHBA REGIONAL HOUSING WORKSHOPS

Anybody engaged in housebuilding today must be fully informed of the updated regulatory and economic environment affecting homebuilders.

These workshops are tailored to provide answers to all your housing and planning related questions. This should ensure that you are up to date with changes in legislation/ regulations prior to engagement with statutory agencies.

You will also have the opportunity to raise questions, and most importantly, network with other homebuilders in your area.

**ATTENDANCE AT THESE WORKSHOPS IS OPEN TO BOTH
MEMBERS AND NON-MEMBERS**
