Product description Screwless feed-through and earthing conductor terminal block. The block types are with lever, pushers and clamping units, composed of insulating envelope (polyamide PA 6.6) and connection facilities with cage clamp and bridging elements.

Risk type Fire

Risk description The product has an incorrectly stamped spring, which could heat at the contact point and lead to thermal damage. This could lead to the terminal blocks catching fire and exploding.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product does not comply with the requirements of the Low Voltage Directive.

Country of origin Unknown
